

# MILTEX HI-LIGHT

## STRIP-HOLDING FORCEPS

### 1 x 2 Diamond-Coated Barrel Tip

Provides firm, but gentle grasping of a wide variety of strips.

### Secure Attachment to Strip

Eliminates strip movement during procedures.

### Unique Slender Jaw Configuration

Allows precise guiding of strip, even in narrow areas.

**72-70**  
Strip-Holding  
Forceps Pair

The Strip Grips® from Miltex, Inc. are designed to securely hold finishing and polishing strips as well as matrix bands during procedures, eliminating the need to hold the strip or band by hand. The 1x2 diamond coated barrel tip gently but firmly clamps the strip, which allows for precise guiding. The Strip Grips® are sold as a pair and can be used in finishing adhesive restorations, polishing, positioning matrix bands, orthodontics, and prophylaxis procedures.
