MILTEX® STERILIZATION TRAYS

3-200100

3-200200

3-200300

Miltex® sterilization trays are designed to help organize and protect instruments from damage during sterilization, transportation and storage of delicate instruments. Each tray comes with a silicone mat that helps secure and protect the instruments while in the tray. The raised mat in each tray not only helps to protect instruments but it also provides efficient ventilation to facilitate drying.

Miltex® sterilization trays are now available in 3 different sizes: A small 4" x 8" tray with mat, a 7" x 11" tray with a single layer mat and a 7" x 11" double layer tray with mat. Each tray comes with a clear lid which allows for easy instrument/procedure identification.

REF	Description
3-200100	Miltex Tray, 7" x 11" (single layer)
3-200200	Miltex Tray, 7" x 11" (double layer)
3-200300	Miltex Tray, 4" x 8" (single layer)
